

### *About North Colorado Medical Center*

Located in the heart of Greeley, North Colorado Medical Center is an award-winning, fully accredited hospital licensed to operate 378 beds. We serve as a regional medical center, offering a broad scope of services to an area that includes southern Wyoming, western Nebraska, western Kansas and northeastern Colorado. In 2013, Truven Health Analytics recognized NCMC as a Top 100 Hospital, and we were chosen by Healthgrades® to be among the nation's 100 Top Hospitals based on overall organizational performance. More than 2,100 employees work for NCMC.

### *About McKee Medical Center*

McKee Medical Center is a 115-bed, acute-care hospital that has served the Loveland and surrounding community for more than 30 years. Recently, McKee was recognized as a Top 100 Hospital by Truven Health Analytics in 2013 and was selected as one of the nation's 100 Top Hospitals based on overall organizational performance by Healthgrades®. Our staff prides itself on providing excellent patient care, the latest in technological advances and caring attention to patient needs. Since opening in 1976, McKee has been dedicated to supporting our patients' physical, emotional and mental well-being. More than 700 people work for McKee.

### *About Banner Medical Group*

Throughout the seven states served by Banner Health, our employed physicians fill a critical role in the communities where they practice by providing both primary and specialty care through the Banner Medical Group. Currently, more than 1,000 physicians and more than 3,300 total employees are a part of the Banner Medical Group. They are an essential element of Banner Health's ability to deliver our nonprofit mission of providing excellent patient care.

### *Coming soon: Banner Fort Collins Medical Center*

Banner Fort Collins Medical Center is being built on a 28-acre campus located at Harmony Road and Lady Moon Drive and will be the third Banner Health facility in the Front Range. Slated to open in 2015, the two-story facility will feature an emergency department, a 24-bed inpatient unit, labor and delivery rooms, medical imaging, surgical services and lab services. The campus will include an outpatient clinic, medical office building and space to accommodate future growth.

### *A long-term commitment to exceptional health care for the city and you*

Arizona-based Banner Health operates 24 acute-care hospitals and numerous health clinics across seven states and employs more than 35,000 people. In April 2013, Truven Health Analytics named us one of the top 5 large health systems in the United States.

As a nonprofit, we reinvest every dollar we earn back into our system. This includes adding new hospital beds, beginning new or expanding patient care services, implementing new technologies, paying employees' salaries and maintaining existing equipment and facilities.

In Colorado, we employ nearly 5,000 people and operate two health centers, several health clinics and four hospitals: North Colorado Medical Center, McKee Medical Center, East Morgan County Hospital and Sterling Regional Medical Center. A single executive leadership team manages NCMC, McKee and Banner Fort Collins Medical Center, which is currently under construction, to ensure we provide outstanding patient care that is comprehensive, coordinated and convenient throughout Northern Colorado.

Our impact in Colorado extends beyond the people we employ and health care we provide. Banner Health supports the community through health and wellness education and sponsorship of numerous local events and organizations.

Banner Health®

Your community and Banner Health

Banner Health®

*We exist to make a difference in people's lives through excellent patient care.*
